About As a Creative Developer, I'm responsible for the front-end development of projects. I started my career in 2012 as a Flash developer at Momkai in Amsterdam. After three years, I switched my focus to JavaScript and, in 2013, joined Firstborn in New York. Throughout my career projects I've worked on have been acknowledged with Red Dot Design Awards, SXSWs, Addys, Ommas, Awwwards and FWAs.
